TIC TAC is the new chaise longue signed SLIDE, born from the creativity of Marco Acerbis. It consists of two elements can also be used separately, a chaise longue and a coffee table, linked together through the lines of a gear that allows you to adjust the tilt. The design, thin and clean, plays on the empty and full, curves and geometric lines.

Convenient and easy it is suitable for indoor and outdoor use, the two separate components can also be easily adapted to rough terrain and sandy soils. Tic Tac, like all the SLIDE production, is made of polyethylene by rotational molding. Upon request, you can also combine two colors, according to the requirements of use.
