Gear is the new pot / stool designed by SLIDE Ivanuk in collaboration with Anastasia, Russian dynamic and innovative young designer. Gear reproduces the typical shape of the gear and can be used as a vase or a stool. Suitable for indoor and outdoor use, this stool is also available in light version thus becoming a part of the scenery suitable for any kind of set up and event. Gear, produced polyethylene with rotational molding, can be an ideal alternative to the common furnishings and lends itself to revive domestic spaces and decorate the exterior.
