

giroflex 646

**giroflex**  
designed to work

## giroflex 646

The new giroflex 646 is a further development of the best-selling giroflex 64. The outstanding ergonomics of the 64 are combined here with simple, modern design.

Designed by Paolo Fancelli, the 646 is eye-catching with its light and modern style. The simple elegance of the giroflex 646 permits complete ease of integration into any room concept. A dual zone seat profile expresses the very latest in modern ergonomics. The Organicmove point-synchronized mechanism is remarkable for its perfected fluid movement and makes active seating a pleasure.

**The perfect seat.** The giroflex 646 is everyone's ideal office chair. It matches itself to your individual seating compartment ideally. With precise adjusting options, you can be sure that the backrest and seat surface are always where they should be. The proven Organicmove point-synchronized mechanism – the chair's power and movement centre – enables an idealized form of active sitting. The giroflex 646 is available with standard or comfort upholstery as well as with or without armrests. The comprehensive range of optional extras allows individual configuration to your needs.

Standard armrests

Height adjustable armrests

Height adjustable armrests with upholstery

Coat-hanger

Height and width-adjustable armrests with adjustable armpad (3-D)

3-D armrests with upholstered pad

Visitor's chairs

## giroflex 646

Individually designed giroflex 646 visitor's chairs are an elegant addition to any surroundings.

Whether in the office, conference room or at home – the giroflex 646 is welcome in any setting.

The giroflex 646 visitor's chair unites design and functionality in a construction of elegant simplicity. The anatomically correct shape of the one-piece seat shell with upholstery ensures ultimate comfort while providing optimal back support. There are numerous upholstery fabrics, leather versions and metallic lacquer finishes available to create customized designs. The visitor chair giroflex 646 can be recycled up to 100%.
