product code 56402

finish Frame in anodised aluminium / KRILON made
colours

composition code 5640201

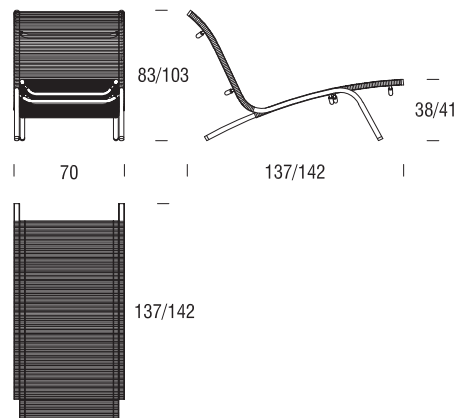

Deck chair divided in two pieces, adaptable to the seating or to relax position.

The frame, with welding TIG of high resistance, is in anodised aluminium anticorrosional satin finish, resistant against marine fog.

The visible joints are a typical characteristic of aluminium hand-made products.

Weaving in Krilon versions:
frosted (satin finish), clear (translucent), bianco lucido (glossy white) and nero lucido (glossy black).
