PRICE LIST €

Valid from January 1, 2008

No. 0812232W

Characteristics: Island taken from Eve's dreams. Enjoy a deeply relaxing vacation right at home. Rounded, organic design for soft and cosy sitting comfort. Giant sofas with ample width and sitting depth; one seat with ordinary sitting depth right in the center of the sofa.

Formation of creases is design-inherent.

The square outlines of the quilted inlets may be visible in the seat cushion cover. Please beat and straighten the seat cushions regularly so they may regain their original form.

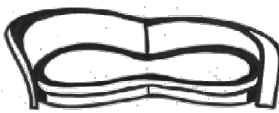

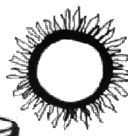

We recommend to add extra back cushions in order to enjoy ideal sitting comfort.

Upholstery: Sound wooden structure. **Seat:** metal spring suspension, seat cushion with a high-quality foam core and a luxurious composition of small foam rods and quills. **Back:** elastic straps covered by a made-to-measure composition of high density foam shapes and cuddly polyester fleece.

The two halves of the sofa are packed separately and must be bolted together on site. Adjustable support foot in the sofa center.

Swivel chair: polished aluminium cast base with typical irregularities on the surface. Ball bearings make for excellent swiveling comfort.
