

the essence of beauty

37 Iside

Design: Bruna Rapisarda

La esencia de la naturaleza. Observar no es sólo distinguir un color, una forma o una textura determinada. Para nosotros observar es ir más allá de la primera impresión percibida, es llegar a encontrar la esencia de todo aquello que vemos, porque sólo de esta manera descubrimos la belleza más pura y simple.

La naturaleza inspira Iside porque responde a un viaje al interior de las formas que encontramos en ella, y de allí se desprende el alma de toda la colección.

The essence of nature To observe is not only to distinguish between certain colours, shapes or textures. For us, to observe is to go even further than the first impression, to discover the essence of all that we see and thus to discern the purest and simplest beauty of things.

Iside is inspired by nature because it responds to a journey inside the shapes we find in nature and from which the soul of the entire collection emerges.
