L. 172 – P. 35 – H. 35

L. 182 – P. 35 – H. 35

L. 192 – P. 35 – H. 35

L. 212 – P. 35 – H. 35

Important notes:

The dimensions are indicated in centimetres. Drawings represented are not in scale. The manufacturer reserves the right to modify products and accessories at any time without prior notice.

Solid wood

Woods:

All the RIVA 1920 articles are available in as many as four different types of wood certified American plantation: cherry, maple, oak and walnut. On request plantation Teak can also be supplied.

Maintenance Kit:

The finish is obtained applying our traditional treatment using wax and natural oils, materials that do not damage health and help bring out the beauty of the wood grain with all its natural splendour.

The variety of colour tones in the wood is one of its qualities, indicating that it is a natural material without colourants or artificial additives.

Furthermore, every product is supplied with a maintenance kit and a product chart certifying its technical characteristics and its origin as a product "made in Italy".

Product maintenance must always be carried out using exclusively the kit supplied and avoiding harsh or abrasive materials. Wood is a living material and our trademark finish of vegetable oil and beeswax helps the wood to "breathe" and to "move" naturally.

It is easy to look after RIVA 1920's wooden furniture: just restore the finish using our maintenance kit whenever necessary.

As distinct from furniture treated with chemical-based coatings, the finish of our furniture can be regenerated even after years or long periods of disuse, restoring it to its original look.
